# India: PELLEX remains firm amid sharp hike in sponge iron, semi-finished steel prices

Oct 31, 2025 19:27

Major producer resumes pellet offers Decent trades in Raipur seen over last 2 days Pellet prices in Raipur remained supported in the last couple of days, with some trades being concluded as buying interest picked up following an improvement in the sponge iron and semi-finished steel markets. Market participants indicated that the recent price hike in sponge iron and billets provided much-needed support to pellet demand after weeks of sluggish activity. Price mov

# India: BigMint's billet index surges by INR 600/t d-o-d on strong demand - 31 Oct

31 Oct 2025

BigMint's billet index rose sharply by INR 600/tonne (t) day-on-day (d-o-d), settling at INR 35,550/t exw-Raipur on 31 October 2025, amid improved buying activity and stronger demand from neighbouring markets which supported offers.

Market sentiments remained volatile but positive, as rising finished steel prices and improved offtake in key consuming regions encouraged participants to step up bookings in semi-finished steel. The sustained rally in finished steel prices provided additional confidence among buyers, leading to renewed optimism on near-term market stability and forward bookings at varied offer levels.

### Market dynamics

Finished steel: In Raipur, rebar prices increased by INR 700/t, while wire rod prices surged by INR 1,000/t, supported by strong buying interest and active participation across markets. Key regions such as Durgapur, Ahmedabad, Jalna, Raigarh, and Raipur recorded healthy transactions throughout the day.

Sponge iron: Prices in Raipur climbed by INR 600/t, tracking improved demand and a revival in buying activity amid fluctuating market sentiments.

The PDRI-to-billet conversion spread for standalone induction furnaces in Raipur was assessed at INR 12,150/t, indicating steady producer margins despite the sharp rise in billet

prices.

### Rationale

This index is derived based on transactions, offers, bids, and indicative price data sets. Transactions are considered T1 and given a weightage of 50%, whereas other data sets are considered as T2 and given a weightage of the balance 50%.

Transactions (T1) - Eight trades at INR 35,500-35,600/t were recorded during the 2:30 pm to 5:30 pm BigMint trading window and considered for final price calculation as T1 inputs. The average of these transactions was INR 35,552/t, which was given a 50% weightage in the final price calculation.

Other price indicators - bids/offers/indicatives (T2) - Eleven offers were reported in the trading window and considered as T2 inputs. The average price of these eleven was INR 35,550/t and given a 50% weightage in the final price calculation.

The final price of billets was INR 35,551/t exw-Raipur, rounded off to INR 35,550/t exw.

From BigMint Team - While it would be our earnest endeavour, at BigMint, to bring about transparent and unbiased price index reporting, we would request all our readers and subscribers for their feedback and if they could participate in the reporting of more transactions.
