Turkiye: Deep-sea scrap prices firm w-o-w but weak demand caps trades

[READ MORE >](#)

Turkiye: Deep-sea scrap prices firm w-o-w but weak demand caps trades

Apr 16, 2026 18:47

Mills covered for April; delay fresh bookings Widening bid-offer gap restricts fresh bulk deals Turkish deep-sea scrap prices showed slight strength during the week, as assessed on 16 April, supported by limited availability from US and EU suppliers.

HMS 80:20 was assessed at around \$403-404/t CFR, remaining largely stable towards mid-week, as constrained supply continued to underpin the market. Trading activity remained subdued, with the bid-offer gap continuing to widen. Turk

India: BigMint's billet index drops marginally on subdued demand

16 Apr 2026

BigMint's billet index in Raipur edged lower by INR 100/t day-on-day to INR 42,100/t exw on 16 April 2026, as limited buying interest and cautious market sentiment continued to weigh on the semi-finished steel segment.

Market sentiment remained soft, driven by weak downstream demand and tepid enquiries. Despite minor price adjustments in select trades, buyers largely maintained a wait-and-watch approach amid uncertainty over near-term demand recovery.

Trading activity stayed limited, with participants refraining from bulk bookings and preferring to track finished steel price trends before committing to fresh procurement. Sellers marginally reduced offers to stimulate demand; however, buying response remained restricted and mostly concluded at negotiated levels.

Finished steel shows slight uptick

In the Raipur market, finished steel prices recorded a modest increase. Rebar prices inched up by INR 100/t d-o-d, while wire rod prices rose by INR 200/t, supported by moderate bookings in the previous session. However, demand at current levels remained need-based.

Sponge iron softens

Sponge iron prices in the Raipur cluster declined by INR 100/t, reflecting muted buying interest and prevailing bearish sentiment. Lower raw material demand from billet producers continued to exert pressure on prices.

The conversion spread from pellet-based sponge iron (PDRI) to

billets for standalone induction furnaces in the Raipur cluster was recorded at around INR 16,000/t.

Rationale

This index is derived based on transactions, offers, bids, and indicative price data sets. Transactions are considered T1 and given a weightage of 50%, whereas other data sets are considered as T2 and given a weightage of the balance 50%.

Transactions (T1) - Three trades at INR 42,000-42,100/t were recorded during the 10:30 am to 5:30 pm BigMint trading window and considered for final price calculation as T1 inputs. The average of these transactions was INR 42,078/t, which was given a 50% weightage in the final price calculation.

Other price indicators - bids/offers/indicatives (T2) - Fifteen offers were reported in the trading window and considered as T2 inputs. The average price of these fifteen was INR 42,150/t and given a 50% weightage in the final price calculation.

The final price of billets was INR 42,114/t exw-Raipur, rounded off to INR 42,100/t exw.

From BigMint Team - While it would be our earnest endeavour, at BigMint, to bring about transparent and unbiased price index reporting, we would request all our readers and subscribers for their feedback and if they could participate in the reporting of more transactions.
