South Asia: Imported scrap demand remains tepid due to downstream weakness

Jun 23, 2025 18:50

Indian buyers muted due to weak market conditions Bangladesh market sees early signs of recoveryThe South Asian imported scrap market reflected cautious buying patterns, geopolitical uncertainties, and subdued downstream steel demand across the region. While Bangladesh showed early signs of recovery with mills gradually resuming purchases, India and Pakistan continued to witness limited activity amid wide bid-offer gaps and buyer resistance.Indian mills remained inactive

India: BigMint's billet index further drops by INR 300/t d-o-d, hits 4-year low - 23 June

23 Jun 2025

BigMint's billet index slumped further by INR 300/tonne (t) d-o-d to INR 37,100/t exw-Raipur on 23 June 2025 - its lowest in over four years, and last seen in February 2021.

Despite price reductions, market activity and buying interest failed to pick up, as weak sentiments and lower bids continued to weigh on spot trading throughout the day. Sellers were compelled to lower spot offers in the semi-finished segment to attract buying interest, but response remained muted.

Participants noted that prolonged weakness in the finished steel segment has further deepened market pessimism, with many buyers remaining on the sidelines amid the ongoing uncertainty.

Raipur market snapshot

Rebar prices fell by INR 200/t

Wire rod prices declined by INR 300/t

Sponge iron prices also dropped by INR 200/t

The conversion spread from sponge iron (PDRI) to billets for standalone induction furnaces in the Raipur cluster was assessed at INR 14,800/t, narrowing further due to falling billet prices.

Rationale

This index is derived based on transactions, offers, bids, and indicative price data sets. Transactions are

considered T1 and given a weightage of 50%, whereas other data sets are considered as T2 and given a weightage of the balance 50%.

Transactions (T1) - Two trades at INR 37,100/t were recorded during the 2:30 pm to 5:30 pm BigMint trading window and considered for final price calculation as T1 inputs. The average of these transactions was INR 37,100/t, which was given a 50% weightage in the final price calculation.

Other price indicators - bids/offers/indicatives (T2) - Fourteen offers were reported in the trading window and considered as T2 inputs. The average price of these fourteen was INR 37,120/t and given a 50% weightage in the final price calculation.

The final price of billets was INR 37,110/t exw-Raipur, rounded off to INR 37,100/t exw.

From BigMint Team - While it would be our earnest endeavour, at BigMint, to bring about transparent and unbiased price index reporting, we would request all our readers and subscribers for their feedback and if they could participate in the reporting of more transactions.
